Kirby Lester **KL60**

Right-sized robotics for any pharmacy

- Compact robotic dispensing for low to high volume pharmacies
- Efficiently manages your top 60 medications; 35-40% (or more) of your total daily orders
- Labels, counts and fills a prescription in about 30 seconds
- 6 order pick-up windows
- Multiple safeguards and always-accurate dispensing
- Accommodate many common vial types and two different vial sizes

All other pharmacy robots occupy much more floor space than the KL60 and KL100, from 2 feet longer up to 6½ feet longer

Safe processes, always-accurate dispensing and hassle-free operation and upkeep - Only with Kirby Lester Robotics
